PERSONAL STATEMENT

I am passionate about programming and particularly interested in using technology to solve real-world problems. I am currently focused on web and mobile development with the short-term goal of improving my back-end skills. In the long run, I intend to delve into Artificial Intelligence.

PRACTICAL EXPERIENCE

Creator: Golf ScoreCard Application (<https://golfscorecard-e6785.web.app/>)

- This application enables users to input their strokes and automatically calculate their scores while playing a round of golf. The user can then download the scorecard as a png to their device.

Technologies used include: HTML/CSS, Bootstrap 5 for responsive styling, JavaScript specifically the React.js framework, and Google Firebase for hosting

Creator: Password Generator Application (<https://pwdgenerator-8333e.web.app/>)

- This application generates various strengths of passwords from keywords input by the user. The user can then select from an array of possible passwords and add them to a list. This list is downloadable as a text file to their device.

Technologies used include: HTML/CSS, Bootstrap 5 for responsive styling, JavaScript specifically the React.js framework, and Google Firebase for hosting

Creator: Polo Forest Website (<https://poloforest-8be95.web.app/>)

- This is a website for a recreational facility in India designed and developed to showcase their historical sites, events and activities they offer.

Technologies used include: HTML/CSS, Bootstrap 5 for responsive styling, JavaScript specifically the React.js framework, and Google Firebase for hosting
